Topliner

General Information

Article number:	RA1-801
Usage:	High coverage, ready-to-use marking colour for marking grass fields and hard courts. The marking colour excels through very quick drying properties, excellent adhesion characteristics and very good water resistance and a very high degree of whiteness. Our Topliner is free of solvents and softening agents.
Basis:	Titanium dioxide, natural fillers, synthetic resin dispersion.

Physical properties

Colour:	white
Gloss level:	mat
Density:	1,20 g/cm ³
Consumption:	By the use of special lawn marking machines as Pitchmark or Linemark with misting spray nozzle, a consumption of only 1 - 2 kg Topliner marking colour for one football pitch can be reached. With other lawn marking machines the consumption can differ.

Application

Area of application:	grass fields, hard courts
Application:	Ready-to-use / Undilutedly.
Processing equipment:	Pitchmark or Linemark, other lawn marking machines also possible
Processing temperature:	Dry and frost-free weather conditions.
Clean-Up:	Immediately in the wet state with water, if necessary in addition with a household detergent.

Consignment & Storage

Packaging:	Plastic canister with 10 litre content; 1 pallet = 40 x 10 l
Storage:	Keep dry and cool, but frost free! The product can be stored for a minimum of 9 months when kept sealed in the original container. Once the container is opened or diluted, use it soon and keep it tightly closed for storage.

Disposal:

Completely emptied containers can be recycled. Containers with hardened remains are residual waste. Containers with liquid remains are special waste and should be disposed at special collecting points according to the locally valid laws on waste disposal. You will find further information regarding the correct disposal on our MSDS.

Hazardous warning

No labelling required as product is non-hazardous.
Please also follow the instructions on the MSDS.
