

Tree Protective Coating

General Information

Article number:	BS1-700
Usage:	Biologically degradable protective coating for young trees and bushes, preventing them from frost damages. griwecolor Tree protective coating protects the bark and supports the natural breathing of the wood by using raw materials that are nontoxic to animals and plants.
Characteristics:	Physiologically completely harmless, biologically degradable as well as solvent and softener free.

Physical properties

Colour:	white
Viscosity:	pasty
Consumption:	200 – 300 g per m ²
Covering rate:	3 – 5 m ² per kg

Application

Application:	Applicate the complete stem up to the first branches. Preferably, the application should be done onto the dry bark in autumn in frost free weather. Apply with a brush to the trunk. The trunk should be cleaned of loose particles beforehand. Please pay attention to a uniform layer that is free of gaps. Only use clean working equipment.
Substrates:	For fruit, deciduous and conifer trees as well as ornamental and garden shrubs in frost endangered areas.
Thinning:	Not necessary, product is ready to use. If necessary, it can be diluted with water.
Processing equipment:	Brush or roller.
Processing temperature:	Dry and frost-free weather conditions during the time of drying.
Clean-Up:	Immediately in the wet state with water, if necessary in addition with a household detergent.

Tree Protective Coating

Consignment & Storage

Packaging:	Trading units with 4 kg or 25 kg content
Storage:	Keep dry and cool, but frost free! The product can be stored for a minimum of 9 months when kept sealed in the original container. Once the container is opened or diluted, use it soon and keep it tightly closed for storage.
Disposal:	Completely emptied containers can be recycled. Containers with hardened remains are residual waste. Containers with liquid remains are special waste and should be disposed at special collecting points according to the locally valid laws on waste disposal. You will find further information regarding the correct disposal on our MSDS.

Hazardous warning

No labelling required as product is non-hazardous.
